

5 STEP IMPLEMENTATION

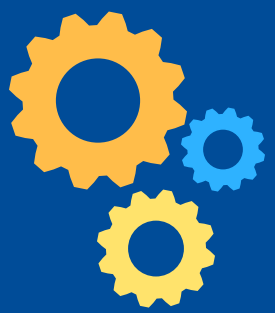

1 INITIAL ASSESSMENT

A site survey is given to familiarize our team with your operations and system integration requirements.

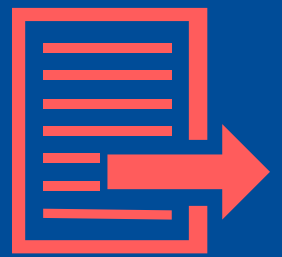

2 SYSTEM CONFIGURATION

Once the hardware and software is installed, our experts will assist you in configuring Financials, Distribution and Manufacturing modules.

3 DATA CONVERSION

Import COA, customer, vendor, products, employees, open orders and history.

4 TRAINING

Hands-on instruction from our experts on using the Financial, Distribution and Manufacturing modules.

5 GO LIVE

Run current and new systems in parallel to validate configuration. Start working exclusively in your new system!

GO LIVE WITH YOUR NEW SOLUTION AT A FRACTION OF THE COST

Most software requires a multiple of 4:1 of Services to Software cost. HarrisData implementations run at a fraction of Services to Software cost.

This provides our customers with:

- Accelerated Time to Value
 - Lower Total Cost of Ownership
 - Low Risk
-
